ARTICLE VI **TEAMS, CLUBS & ORGANIZATIONS**

A. NATIONAL TOURNAMENT BOUND CLASSIFICATION APPROVAL

In June of 2016, the USA Hockey Board of Directors approved Proposal "2016 – Youth Council #3 Amended" which establishes "Standards and Criteria" for the Tier I Youth & Girls Classifications. The final language will be placed into the USA Hockey Annual Guide in section "III TEAM MEMBERSHIP AND REGISTRATION".

This section of the AAHA Rules and Regulations will provide additional "Standards and Criteria" as well as interpretative guidelines of Proposal "2016 – Youth Council #3 Amended".

- (1) The Affiliate President shall designate by the third weekend of January of each year those organizations and or clubs that shall be authorized to field teams for the upcoming season that may register teams at the Tier I Youth and Girls, Tier II Youth and Girls, and Senior Women A, B & C classifications.
 - (a) Such approval for any Organization/Club that is designated by the Affiliate President to compete towards USA Hockey National Tournament competition is based solely on those levels where USA Hockey offers a National Championship Tournament or equivalent;
 - (b) The Affiliate recognizes that its member Organizations/Clubs may compete in Leagues that have developmental structures and levels (i.e. Major, Minor, AA, A, B, National,

Premier, Elite, etc.), to support the overall developmental objectives of the league and its Member's players. Such team(s) shall not require the approval of the Affiliate President, for participation in such league, provided such teams will not be competing in any competition that will lead towards a USA Hockey National Championship for that team. (Example: Tier II Teams at the A & B levels, Tier I 10U, 12U and 14U Minor do not need Affiliate Approval.) However, the Affiliate President has the authority to withhold sanctioning at these levels based upon previous season's performance and other such criteria deemed appropriate.

- (2) Classification Level. Team classifications for the Atlantic Amateur Hockey Association shall be the USA Hockey classifications at all levels. Age levels 10U through 18U are deemed appropriate levels for approved Tier I Organizations/Clubs, and such Organizations/Clubs may conduct tryouts as designated in the AAHA Rules. AAHA Organizations/Clubs shall not make any reference or indicate in any way "Tier I Mite", "AAA Mite" or similar term in association with their Tier I or Tier II program.
- (3) The Affiliate shall provide an application to initiate the approval process, available from the Affiliate Office and/or online from the Affiliate web site. The Affiliate reserves the right to change the application, in order to collect the appropriate information.
- (4) For Tier I Organizations/Clubs, the Affiliate may require the execution of an agreement between the Tier I Organization/Club and the Affiliate, which agreement may be subject to the approval of USA Hockey.

B. TIER I & TIER II DESIGNATIONS – REQUIREMENTS

- (1) Organizations/Clubs seeking approval for Tier I or Tier II National Tournament Status for the following season shall complete and submit the appropriate Tier I/Tier II National Tournament Status Application by November 30th of the current season.
- (2) Tier I AAA Designation Policy. Any Organization/Club in good standing within the Atlantic Affiliate that is seeking approval for a Tier I AAA designation (Youth 14U, 15P 16U, 18U and Girls 14U, 16U, 19U) for any or all of its teams may make written application to the President for such designation. The President shall, with the advice of the Tier I Selection Committee, formally designate those teams that shall be authorized to use the Tier I AAA designation and be eligible to participate in competition leading to the USA Hockey National Tournament. Every Tier I AAA National Tournament Bound application shall be duly considered and acted upon in accordance with the procedures and criteria set forth in this Article.
- (3) Procedure for Making Tier I National Tournament Bound Designations. All Tier I AAA National Tournament Bound designations shall be made by the President in accordance with the following procedure:
 - (a) Time for Applying for Tier I National Tournament Bound Designation. By no later than November 30th for the following season of each year, any Organization/Club that wishes any teams to be considered for a Tier I AAA designation shall submit a written application as provided by the Affiliate and in the manner prescribed by the President.
 - (b) Applicants may be required to attend a formal presentation meeting, held prior to the third weekend in January. The completed Application, any additional requested information from the Organization/Club may be required for the presentation meeting.

- (c) Applicants may be summarily approved, granting full or partial approval, and not require a meeting based upon generally recognized high competitive performance, and compliance with Affiliate and USA Hockey requirements on Tier I Standards and Criteria.
 - (d) Applicants may be summarily rejected in whole or part, based upon failure or inability to comply with Affiliate and USA Hockey requirements on Tier I Standards and Criteria, apparently lack of competitiveness, and such rejections are subject to the appeals process of this Article, Section C.
 - (e) The Affiliate may provide for stricter rules and requirements than what is provided by USA Hockey.
 - (f) Tier I AAA Selection Committee. The President shall by no later than November 30th of each year appoint a committee consisting of not fewer than Five (5) persons who are reasonably disinterested and impartial and are sufficiently familiar with the game of ice hockey to reasonably evaluate the qualifications of those Organizations/Clubs seeking a Tier I designation. The Tier I AAA Selection Committee shall be headed by a Chairperson who shall be appointed by the President and be generally responsible for the conduct of all Committee business and shall submit a written report to the President containing the Committee's recommendations. The Tier I selection Committee shall consider all Tier I AAA applications submitted to the President for Tier I AAA designations and make written recommendations to the President on all such applications in accordance with this Article.
 - (g) Time for Committee to Make Tier I AAA Recommendations. The Tier I AAA Selection Committee shall submit its written recommendations to the President by no later than January 1st of each year based upon the criteria set forth in this Article.
 - (h) Time & Method of Notice for President to Declare Tier I AAA Designations & Number of Designations Available for the Following Season. The President shall by the third weekend of January of each year declare those Organizations/Clubs and their specific teams that are designated as Tier I AAA and are authorized to use that designation and compete as Tier 1 AAA teams for the upcoming season.
 - (i) The President shall also identify the number of Tier I AAA designations that will be available for the following season based upon the criteria set forth in this Article. Publication on the Affiliate website of those teams designated as Tier I AAA for the then- current year and the number of Tier I AAA designations available for the following year shall be sufficient notice of such determinations for the purposes of this Article.
- (4) Criteria for Determining Tier I AAA Designations. Tier I AAA hockey is the highest level of youth/girl's hockey within the Affiliate. Organizations/Clubs with designated Tier I AAA teams should be those that have demonstrated the highest level of competence based on past tournament performance, organization, league schedule, and development of players that advance onto NCAA college hockey, National Team and USA Hockey Festival Teams. The Affiliate Tier I designations shall be based upon the following National and Affiliate adopted criteria:
- A. FOR TIER I YOUTH TEAMS - The number of Tier 1 Youth teams in the Affiliate, in each age classification, shall be limited by the number of players registered in the Affiliate, in that age classification. In each classification, the Tier I Teams shall not

exceed 12% of the total players registered in that age classification in the Affiliate during the preceding season, provided that, subject to Affiliate approval, the Affiliate shall have at least one team per age classification. For the purposes of this 12% calculation, each team shall be presumed to have twenty (20) players. The total number of players in that age classification shall be multiplied by 12% and the product shall then be divided by 20 players which shall determine the number of Tier I team permitted in the Affiliate. For example, If the Affiliate has 480 players in an age classification then 12% of that number would equal 57 players eligible for Tier 1 in order to have teams of 20 players, the Affiliate would be limited to three (3) Tier 1 teams at that age.

- (i) Notwithstanding the use of the 20 players per team in the calculation of the number of teams that may registered in the Affiliate at the Tier I Level, all teams at the 14U, 15P, 16U and 18U must have minimum of 15 players (including goalkeepers). Organizations must be able to provide proof, if requested by the Affiliate, that the Organization's Tier I Teams have at least twelve (12) players under contract by May 15 for the foregoing season. Failure to provide such proof, may result in the loss of Tier I status, minimally for that coming season.

12% RULE		18.0	24.7	27.4
15% RULE		22.56	30.915	34.2

NOTE: Over the next 12 months, the Affiliate shall study the feasibility of reducing the number of Tier I YOUTH to a more competitive level; develop methods to reduce the number of teams and the possible creation of an "at-Large" parity event, to serve as a "catch-all" so that Tier I can remain accessible, but not watered down.

B. FOR TIER I GIRLS TEAMS - The number of Tier 1 Girls teams in the Affiliate, in each age classification, shall be limited by the number of players registered in the Affiliate, in that age classification. In each classification, the Tier I Teams shall not exceed 20% of the total players registered in that age classification in the Affiliate during the preceding season, provided that, subject to Affiliate approval, the Affiliate shall have at least one team per age classification. For the purposes of this 20% calculation, each team shall be presumed to have eighteen (18) players. The total number of players in that age classification shall be multiplied by 20% and the product shall then be divided by 18 players, which shall determine the number of Tier I Girls teams permitted in the Affiliate. For example, If the Affiliate has 350 players in an age classification than 20% of that number would equal 70 players eligible for Tier 1 in order to have teams of 18 players, the Affiliate would be limited to three (3) Tier 1 teams at that age.

- (i) Notwithstanding the use of 18 players per team in the calculation of the number of teams that may registered in the Affiliate at the Tier I Level, all teams at the 14U, 16U and 19U must have minimum of 15 players (including goalkeepers). Organizations must be able to provide proof, if requested by the Affiliate, that the Organization's Tier I Teams have at least twelve (12) players under contract by May 15 for the foregoing season. Failure to provide such proof, may result in the loss of Tier I status minimally for that coming season.

C. For All Tier I Teams (Youth and Girls)

- (i) **Minimum Period of Operation:** In order for any Association to be eligible to apply for Tier I National Tournament status, the Association must have been in existence and registered with the Affiliate for a minimum of three (3) consecutive years.
- (ii) **TRYOUTS –** Tryouts for Tier I teams must be published and advertised. No Tier I team may recruit or solicit players or offer contracts to players for the following season, or hold development camps, tryouts, make player selections, or any activity that could be construed as a tryout/solicitation or recruitment for the following season, until 48 hours after the last game of Youth National Championships (both Tier I and Tier II Nationals must be completed). (i.e If the National Tournament ends at 4 PM on Monday, tryouts can begin after 4 PM on Wednesday). Any violation of this prohibition may subject the coach, team, program and/or responsible administrators to appropriate discipline, ineligibility of the team or coach, or loss of Tier I status, as determined by the Affiliate.
- (iii) **TEAM ROSTERS:** USA Hockey allows up to twenty (20) players to be rostered on any given team. An Organization with approved Tier I teams is required to maintain and publish their roster, either on the Club's website, or a League website in which the team participates. Each Team's Tier I Roster must be identical to its USA Hockey Tier I Roster, at all times, without exception. Players dropped from a Tier I roster, shall be deemed "Cut" from the team, and eligible to participate and join with any other Tier I team, and shall not be bound to the "One Team/One Season" Rule. This determination, in no way, makes any determination on the financial obligations of the player to the Club that has dropped the player.

No Organization shall roster a player on any approved Tier I Roster, without that player's consent, and if a minor, parental consent is required.

- (iv) All Tier I Teams must play a full season, have a minimum average of two (2) on-ice practices weekly, plus one off-ice training session, between September 1 and March 1 of each season. Each Organization with approved Tier I Teams shall keep accurate records, which may be requested for review by the Affiliate at any time during the season, and as part of the Tier I approval process.
- (v) The Association must have at least two (2) National Tournament Bound Teams in either the Tier I or Tier II Tournament Bound class of 14U through 18U for Boys, and 14U and 19U for Girls, each of which must have a minimum of fifteen (15) players per team. To be compliant with this rule, if the Organization was fielding two Nationally Tournament Bound Teams, both rosters must have 15 players each, for a total of 30 different players.

D. Highest Level of Quality & Proficiency. Organizations and their Prospective Tier I AAA teams must demonstrate their willingness and ability to perform at the highest levels of proficiency both on the ice and in their administration, including, each of the following:

On Ice Quality & Proficiency. Teams must demonstrate the highest skill level(s) and the ability to compete at the highest level and to develop high-level players in the future; and

Coaching. Teams must have qualified high-level coaches, in good standing and demonstrate effective training and player development standards and protocols; and

E. Club Affiliation. Every prospective Tier I AAA team must be part of an Organization/Club and demonstrate a viable feeder program. Each prospective Tier I AAA team shall have a minimum of three (3) age level teams below the requested level so as to demonstrate an established feeder program. (Example – If applying for 14U level a team would be required to have the following feeder teams, 8U-10U-12U or similar combination, within its organization or a working relationship with another organization that has its primary home within the same rink facility)

F. Transfer Players. No prospective Tier I AAA team may add more than two (2) players who were rostered on any single Tier I AAA team or more than four (4) players who were rostered on the same Tier II team the previous season. The 2/4 player rules set forth in this paragraph shall not apply to those players who:

- (i) Participate at the 18U level; or
- (ii) Move up or transfer from within the same club, organization or from the prospective Tier I AAA team's feeder team(s); or
- (iii) Legitimately tryout with their original organization and are subsequently cut or who are not offered a player contract

G.ADM/AAHA Affiliate Compliance. All prospective Tier I AAA teams must provide evidence that their affiliated organization is ADM/AAHA Affiliate compliant.

H.Annual Application. All teams must re-apply for Tier I AAA designation each year. However, those teams earning a berth in the USA Hockey National Tournament are presumptively designated Tier I AAA for the following year provided they otherwise meet these Tier I AAA requirements.

5.Non-League & Independent Tier I AAA Teams. In order to afford non-league and independent teams' reasonable access to the Tier I AAA designation and Affiliate Tournament, the Affiliate shall organize, administer and operate through its President and Vice President of Tournaments, an Annual AAHA Tier I AAA Qualifying Tournament. The Tier I AAA Qualifying Tournament is intended to allow those Tier I AAA teams that do not play a regular Tier I AAA league schedule and are not part of league standings, or not part of a League sanctioned by the AAHA Affiliate, the opportunity to play into the Tier I AAA Tournament. The Tier I AAA Qualifying Tournament shall be administered in accordance with the rules applicable to Affiliate Invitational Tournaments set forth in Article IX.

The Affiliate VP of Tournaments shall determine the eligibility and seeding for the Tier I AAA Tournament in accordance with prevailing policies and may appoint a competition committee to assist in determining eligibility and seeding for the annual Affiliate tournament.

6.Tier II Designation Policy. Every Tier II AA National Tournament Bound application shall be duly considered and acted upon in accordance with the procedures and criteria set forth in this Article.

7.Procedure for Making Tier II AA National Tournament Bound Designations. All Tier II AA National Tournament Bound designations shall be made by the President in accordance with the following procedure:

- a) Time for Applying for Tier II AA National Tournament Bound Designation. By no later than November 30th for the following season of each year, any Organization/Club that wishes to have its teams be considered for a Tier II AA National Tournament Bound designation shall submit a written application on a form and in the manner prescribed by the President. Teams shall provide such information and documentation as shall from time to time be requested by the President.

The Tier II Selection Committee shall be headed by a Chairperson who shall be appointed by the President and be generally responsible for the conduct of all

- (i) Criteria for Determining Tier II AA National Tournament Bound Designations. Tier II AA National Tournament Bound hockey is a competitive level of youth travel hockey within the Affiliate. Tier II teams should be those that have demonstrated a consistent level of competition, organization, and development of youth hockey players for advancement to Tier I or other youth hockey programs and for their enjoyment and recreation. The Affiliate designations shall be based upon the following criteria:
- e) General Acceptance of Competent Tier II Programs. Since Tier II is intended as a less competitive classification of youth hockey than Tier I, no limiting percentages will be applicable and the criteria for granting Tier II designations shall be less stringent. Once a team is designated as Tier II, it shall be presumed to retain that designation unless otherwise recommended by the Tier II Selection Committee and approved by the President. The President, with the advice and recommendation of the Tier II Selection Committee shall generally grant Tier II designation requests at each level based upon the following criteria:
- f) Proficient Level of Quality. Prospective Tier II AA National Tournament Bound teams must demonstrate their willingness and ability to perform at proficient levels both on the ice and in their administration; including, each of the following:

- ii. Time of Hearing. The hearing shall be conducted at the time, place and in the manner as the Chairman shall designate.

If there was any reasonable basis that for the President's decision, the decision must be upheld.

Hazing - To be in accordance with USA Hockey's Hazing policy

D. PARENT & SPECTATORS CODE OF CONDUCT

- (1) Do not force your children to participate in sports, but support their desires to play their chosen sport. Children are involved in organized sports for their enjoyment. Make it fun.
- (2) Encourage your child to play by the rules. Remember, children learn best by example, so applaud the good plays of both teams.
- (3) Do not embarrass your child by yelling at players, coaches or officials. By showing a positive attitude toward the game and all of its participants, your child will benefit.
- (4) Emphasize skill development and practices and how they benefit your young athlete. De-emphasize games and competition in the lower age groups.

- (5) Know and study rules of the game, and support the officials on and off the ice. This approach will help in the development and support of the game. Any criticism of officials only hurts the game.
- (6) Applaud a good effort in both victory and defeat and enforce the positive points of the game. Never yell or physically abuse your child after a game or practice – it is destructive. Work toward removing the physical and verbal abuse in youth sports.
- (7) Recognize the importance of volunteer coaches. They are important to the development of your child and the sport. Communicate with them and support them.

E. HIGH SCHOOL POLICY

- (1) General Rule. The Atlantic recognizes the value of both club hockey and high school hockey to a player's development and enjoyment of the game. It is the policy of the Atlantic District, that:
 - (a) No Bantam, Midget or Junior coach or organization may prohibit any of their players from participating with their USAH registered scholastic team
 - (b) No scholastic coach or organization may prohibit a player from participating on a USAH registered Bantam or Midget team.
 - (c) In the event of a conflict between a game for one team and a practice for another team, the player shall be permitted to attend the game, with no penalties to the player for missing practice. It shall be an excused absence from practice, and not be held against the player in any way, including but not limited to any allowances a player is permitted to miss for that team
- (2) Penalties for infraction of the above
 - (a) 1st offense – warning to coach and club
 - (b) 2nd offense – 30 day suspension to head coach of offending organization and person responsible (if different from head coach)
 - (c) 3rd offense – 1 year suspension to head coach and \$1,000 fine to Organization

B. REFEREES SUSPENSIONS in accordance with USA Hockey Bylaw 10

C. COMMUNICATION OF SUSPENSION in accordance with USA Hockey Bylaw 10

D. GAME DEFINITION (FOR SUSPENSION)

E. LEGAL ACTIONS

- (1) In order to preserve as far as possible, the integrity of amateur hockey, any recourse to the courts or legal action by a member or individual before all the rights of the Bylaws and Rules & Regulations of this Association have been exhausted, shall be considered ungentlemanly conduct entailing the immediate suspension and disqualification of any such member or individual. Refer to USA Hockey, Inc., Bylaws, Suspensions and Resolution of Disputes for additional information.

ARTICLE XII - USA HOCKEY GUIDELINES REGARDING NON-SANTIONED PLAY

USA Hockey and its Affiliates are charged with establishing rules and policies for the organization, coordination and betterment of hockey, including developing players, coaches and officials, and managing and minimizing risks associated with the sport. Examples of recent rules and policies include the American Development Model (ADM), Red, White and Blue Hockey (cross-ice) for players 8 and under, and processes and procedures for expansion of junior hockey programs. USA Hockey strongly *believes* in these programs as evidenced by the overwhelming support they have received across the country, the continuing growth in membership, and the advances that have resulted and are expected to result in the development of hockey players in our country.

USA Hockey has had inquiries recently regarding the rights and obligations of USA Hockey, its various Affiliates and local programs with respect to ice hockey that is not sanctioned by USA Hockey. To provide guidance to Affiliates and local programs, USA Hockey, as the National Governing Body for ice hockey in the United States, provides the guidelines below acting pursuant to USA Hockey's authority under the Amateur Sports Act (36 U.S.c. § 220501 et. seq.).

- For a game to be sanctioned by USA Hockey, all players, coaches and officials in the game ("Individual Participants") must be members of USA Hockey and the USA Hockey Affiliate with jurisdiction over their *respective* geographic area(s). Participating teams must also be members of the applicable USA Hockey Affiliate.
- There have been occasional exceptions to the *above-stated* membership requirement where in certain limited, special circumstances, USA Hockey or the applicable USA Hockey District Registrar may provide a special *event* sanction for an event where not all participants are members of USA Hockey ("Special Events"). These Special Events are occasional and have generally been limited to exhibition games between USA Hockey teams and High School Federation or NCAA teams, Try Hockey For Free programs, and alumni and charity games. The limited nature of these exemptions is due to USA Hockey insurance and risk management concerns.
- Any Individual Participant may become a member of USA Hockey.

Membership in or registration with another sanctioning body may not be used as a basis to deny membership in USA Hockey, its Affiliates or local programs. Correspondingly, no Individual Participant may be penalized for participating in a program that is not sanctioned by USA Hockey. Any Individual Participant may be disqualified from membership for violation of USA Hockey Bylaws, Rules & Regulations or Policies in accordance with USA Hockey's Dispute Resolution Procedures.

- Affiliates may establish reasonable rules for compliance by such Affiliate's member organizations and/or teams seeking membership in or who are already members of the Affiliate, provided that such rules do not conflict with the Bylaws, Rules & Regulations, Policies or directives of USA Hockey.
- If a team desires to play in a USA Hockey sanctioned game, tournament or event then, unless it is sanctioned as a Special Event, the team and its Individual Participants must be registered with USA Hockey and the applicable Affiliate. Such registration implies and constitutes the registrant's agreement that the team and all of its Individual Participants will be subject to the Bylaws, Rules & Regulations, Policies and Playing Rules of USA Hockey and the reasonable requirements of membership for the applicable Affiliate.
- Once an organization, team, or Individual Participant becomes a member of USA Hockey and the applicable Affiliate, that Affiliate may require that the member organization, team, and all Individual Participants continue to comply with the reasonable requirements for membership in the Affiliate. This may include, for example, such rules as coaching certifications, screenings, equipment requirements, safety mandates, and other rules, including the ADM and Red, White and Blue Hockey, if the Affiliate has in fact mandated such rules.
- An Affiliate may enforce a rule that prohibits its member teams from participating in games or practices that are not sanctioned by USA Hockey. Unless sanctioned as a Special Event, USA Hockey's insurance policies are not available to cover local programs, teams and Individual Participants when participating in a game or practice among or between teams sanctioned by an Affiliate and a non-sanctioned team. A parent of a youth hockey player that has registered with USA Hockey with the expectation of receiving the benefits of such membership, should not be placed in a situation where they may be surprised to learn after their child is injured that the injury occurred during a non-sanctioned event.
- An Affiliate may also enforce a rule that its member organizations must register all of their teams and players with USA Hockey and the Affiliate. If an Affiliate has such a rule, a member organization within that Affiliate cannot register some of its teams with the Affiliate while other teams in that organization are not registered with the Affiliate. Important reasons for such a rule are so that neither USA Hockey nor its Affiliates become liable for activities conducted by a member organization that is also conducting non-sanctioned events, and to prevent the occurrence of situations where USA Hockey's insurance could potentially be asserted to apply in a non-sanctioned event.
- Despite the foregoing, if an Affiliate's member organization or team desires to play in events or games that are not sanctioned by USA Hockey, they may seek a Special Event sanction for such game or event, or they may also do so

provided that certain other requirements are met.

Teams playing in a non-USA Hockey sanctioned event or game must be part of a separate organization (for example, a separately incorporated corporation) that is sufficiently distinct from the USA Hockey sanctioned program. The non-sanctioned organization or team(s) should also have a separate board of directors, the team cannot wear the same uniforms or have the same team names, and all rink or vendor contracts relating to the non-sanctioned team(s) or activities must be in the name of the separate organization rather than the USA Hockey member organization or team. Distinguishing teams participating in non-sanctioned events or programs from teams that are members of USA Hockey will help avoid making USA Hockey, its Affiliates or member organizations liable for activities conducted in connection with non-sanctioned play, prevent the occurrence of situations where USA Hockey's insurance could potentially be asserted to apply in a non-sanctioned event, and will also help make Individual Participants (and their parents or guardians) aware of which games or events are under USA Hockey rules and oversight and are covered by USA Hockey insurance and other benefits.

•USA Hockey Rules & Regulations, Section IV., provide as follows:

- Any youth player (male or female) rostered on a Tier I or Tier II youth or girls'/women's team and a Junior Program team as of December 31, can only play for one team after December 31. If the player plays in a Junior game after December 31, he/she loses all eligibility on his/her youth team for the remainder of the season, regardless of how many games are played at the Junior level.
- This rule should be applied to any games played at the Junior level with any organization. The purpose of this rule is that players playing on youth teams during the latter half of the playing season should not also be playing Junior hockey. Further, not having Junior players participating in Youth national tournaments protects the integrity of the USA Hockey National Championships. By applying the rule regardless of the sanctioning body that governs the applicable Junior team, all Junior teams are treated equally.

Affiliates and officials' organizations may establish and use reasonable criteria, rules and procedures for selection and scheduling of officials for games within their jurisdiction. There are numerous valid reasons why an Affiliate, officials' organization or scheduler may select one official over another for a particular game, league or level of play. However, no USA Hockey official may be penalized, threatened, excluded or made ineligible for officiating USA Hockey games based on that official being certified by or officiating games that are not sanctioned by USA Hockey or are sanctioned by some other entity. Many USA Hockey officials work games not under USA Hockey's authority (e.g., NCAA Canadian Hockey League, East Coast Hockey league, High School Federation, etc.). To be sure, an official will not receive the benefits of USA Hockey, including insurance coverage, supervision, disciplinary processes and enforcement, etc., while officiating a game not sanctioned by USA Hockey; and that official is not permitted to wear a USA Hockey crest/patch on their jersey during a game not sanctioned by USA Hockey. To reiterate, no Affiliate may, and no Affiliate shall permit an official's organization or scheduler under its control to, punish, threaten, blackball or make any official ineligible for USA Hockey games, based on the official becoming certified by another entity or officiating games that are not sanctioned by USA Hockey. Most hockey programs and officials' associations endeavor to consider their officials to be independent contractors; to place restrictions on officials from officiating non-sanctioned games may place that independent contractor status at risk, and subject the hockey program or official's association to other liabilities. (USA Hockey may amend or supplement these guidelines).
